

Side Notes: This has always been one of my favorite Hymns because it makes me want to get up, move and serve others. I've probably gone a little too far a time or two when playing the accompaniment to this song. While this arrangement is not appropriate to play in a sacrament meeting, it's certainly fun to play and is the type of arrangement I always wished I would have had on P-day during my mission when there was a piano available to play. Be sure to keep the beat throughout the song and don't get going so fast you play it sloppy. This arrangement can get very pounchy, so be sure to vary the dynamics.

Called to Serve / Praise to the Man
