

Side Notes:

- I wrote the original version of this song during my Senior year of High School. I've reworked the ending and think it fits better now. When I play this song it brings back memories of high school and the good times I had with friends.
- I've contemplated adding chords and extra notes to this song, but I think that it's best to keep it simple so that you can add notes and change the song how you would like. Be creative and have fun when you play this song.
- Sometimes I like to start the song an octave higher. So play it high or low depending on your mood.
