Side Notes: I've written several arrangements of Silent Night over the years but wanted to do one that had some unexpected but beautiful harmonies in it. This would be tricky to have people sing to, but I wanted to have something that would be recognizable, yet different from the thousands of piano solos that have been done of this classic tune of Silent Night. I think it would work well as a backing track to someone reading the Christmas story from the Bible or sharing a different Christmas story. Hopefully you enjoy playing this arrangement and maybe there will be a time when you need something soft to play while someone is sharing a Christmas story in a program or at church.
